PROFILE

Passionate Full-Stack Developer (MERN) with strong foundations in HTML, CSS, JavaScript, and modern web development. Experienced in building responsive web applications using React.js, Node.js, Express.js, and MongoDB, with skills in REST API development, component-based architecture, and backend integration. Seeking an entry-level Full Stack or React Developer role to contribute to real-world projects and grow as a software engineer.

SKILLS

Frontend Development

HTML5, CSS3, JavaScript (ES6+), React.js, JSX, Responsive Web Design

Backend Development

Node.js, Express.js, RESTful API Development

Full-Stack Technologies

MERN Stack (MongoDB, Express.js, React.js, Node.js)

Architecture & Development Concepts

Component-Based Architecture, API Integration, Authentication (JWT)

EDUCATION

B.Sc. in Computer Science & Engineering (CSE)

Daffodil International University

CGPA: 3.53 / 4.00

Completed Coursework | Final Defense Pending (2026)

EXPERIENCE

Web Developer & MIS Administrator

Mountain Consumer Ltd. | Jan 2026 – Present

- Developing and maintaining company web applications and digital platforms.
- Built and manage The Bangladesh News (thebangladeshnews.com) using PHP, MySQL, HTML, CSS, JavaScript, and Bootstrap.
- Develop and maintain backend features, APIs, and database-driven functionalities.
- Manage deployment, website maintenance, and version control using Git and GitHub.
- Provide MIS support and optimize internal digital workflows.

Freelance Full-Stack Web Developer

Self-Employed | Jan 2024 – Dec 2025

- Delivered custom web applications for local and international clients using the MERN Stack.
- Built responsive frontend interfaces and scalable backend APIs.
- Implemented secure authentication, database integration, and application deployment.
- Successfully developed and delivered:
 - protidinerbazar.com
 - dhakaassist.com

Projects

Protidiner Bazar – <https://www.protidinerbazar.com/>

- E-commerce platform built with full-stack features, responsive UI, and API integration.

Dhaka Assist – <https://www.dhakaassist.com/>

- Service-based platform with custom frontend and backend development.

The Bangladesh News – <http://thebangladeshnews.com/>

- PHP-based news portal with CMS, responsive design, and admin management.

QuickHire — Job Portal Web Application

Live: <https://quick-job-eight.vercel.app>

GitHub: <https://github.com/majedul0/QuickJob>

- Built a job portal platform where users can browse and apply for jobs.
- Developed frontend with React and implemented backend APIs for job listings and applications.
- Focused on clean UI and responsive design.

ChatBox — Real-Time Chat Application

Live: <https://chatbox-mern.onrender.com>

GitHub: <https://github.com/majedul0/chatApp>

- Developed a real-time chat application using the MERN stack.
- Implemented user authentication and private messaging.
- Designed a responsive React UI and integrated backend APIs for messaging.

ShoeVista — E-commerce Shoe Store

GitHub: <https://github.com/majedul0/ShoeVista>

- Built a full-stack e-commerce platform using React (Vite), Express.js, and MongoDB.
- Implemented product listing, cart functionality, and backend API integration.
- Designed scalable backend services for managing products and orders.

LANGUAGE

- English
- Bangla

Other Skills

- Problem Solving
- Debugging
- Clean Code Practices
- Basic Cybersecurity Concepts
- SDLC Knowledge

Tools & Technologies

Version Control: Git, GitHub

Containerization: Docker

API Testing: Postman

Package Manager: npm

Development Tools: VS Code

Operating System: Linux (Ubuntu)
